Sound Reading’s unique Reading Therapy software, Parent/Family Reading Engagement Tutorial Kit, reading practice books, games and professional development seminars promote the natural way children learn to read by incorporating the nine critical skills that build reading comprehension. We explicitly teach:

- The Foundation-Decoding (Auditory Discrimination, Phonemic Awareness and Word Reading Accuracy)
- The Structure-Fluency (Automatic Naming, Word Reading Fluency and Sentence Fluency)
- Achievement-Comprehension (Concept Formation, Sentence Reasoning and Listening Comprehension)

Sound Reading’s Cognitive Advantage differentiates us from other reading programs, not just because of what we teach but how we teach it.

- Evidenced-based / Classroom-tested Activities
- Spiral learning to eliminate frustration
- Game-like motivation with clinical delivery
- Overlearning to end the learn and forget cycle
- Brief, varied activities to maximize memory and attention
